## DETAILED ACTION

### *Priority*

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### *Claim Objections*

2. Claim 17 is objected to because of the following informalities: the term "an substantially" should be "a substantially." Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 16 recites the limitation "the at least one shaving device" in line 4. There is insufficient antecedent basis for this limitation in the claim. It appears the claim should depend from claim 13.

### *Claim Rejections - 35 USC § 102*

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-12 and 27-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Arneson US 3,073,468.

Ameson '468 teaches a threaded inner cap (16), and an outer cap (24) with a window (44) which is permanently moved from a green sector to a red sector when the cap is first rotated.

Art Unit: 3781

7. Claims 1-5, 12, and 22-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Samburg US 2,201,791.

Samburg '791 teaches a first segment (18) and a second segment (20, 21), whereby rotation of the closure causes the lower segment to be lifted, exposing the tamper message.

#### ***Allowable Subject Matter***

8. Claims 13-15, 17-21 and 24-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Examiner notes claims 14-15 appears as though it should be dependent from claim 13.

9. Claim 16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims. **Examiner notes claim 16 should be dependent from claim 13.**
